Choose your colors for your Valentine's floral bouquet. The most popular sweetheart Valentine's bouquet consists of red roses often combined with white, and pink. Purple, pink and yellow are a vibrant change of pace from traditional red hues – especially for Mom's and Sisters. You can make a beautiful bouquet with a combination of all these colors, or a choice of just two of the colors. Choose from specialty flowers such big white fluffy Mums, hot pink bromeliads or pink orchids. Specialty flowers can add an elegance and charm to your discount Valentine's bouquet.

[Dollar Tree](#) stores have a great selection of [ribbon, vases and supplies](#) for \$1 each. A clear glass vase and satin like ribbon is an elegant look for a red rose Valentine's bouquet. Or keep it simple, skip the vase and deliver fresh cut flowers with a simple ribbon on it.

Prepare your flowers for your Valentine's bouquet. Cut one inch off each flower stem. Make sure to cut rose stems at a 45 degree angle under running water. Hold each rose stem under cold running water, and then cut. This helps the rose from getting air bubbles and droopy heads. If you are planning to put roses or any flower in a vase, strip the greenery from the lower stem 2 -3 inches below the blossom to make the flowers last longer in water. Add green fern leaves if you want to expand and enhance the fullness of a flower bouquet in a vase.

Arrange the flowers for your Valentine's bouquet. Think of a triangle when you are putting your Valentine's bouquet together in a vase or ribbon tied bundle. The tallest flower goes in the middle. Make sure it is full, and colors are evenly distributed throughout your bouquet. Look at these [step by step](#) floral arrangements for complete instructions. Make sure your bouquet looks full and proportional in the vase.
